BUYER AGREES TO THE FOLLOWING:

1. This cat will be kept **indoors** and will be provided with love, good nutrition, and proper medical care.
2. This cat will not be sold or given to any pet shop, research facility, animal shelter, or similar facilities, nor will this cat be abandoned!
3. It is Seller's intention that this be a permanent placement. If Buyer can no longer keep this cat, Seller will be notified and given first right of refusal. If Seller chooses not to reclaim this cat, it is the responsibility of Buyer to place this cat as a pet in an excellent home.
4. This cat is being purchased as a PET and will not be used for breeding. If this cat is not already neutered or spayed, Buyer will have this surgery performed before this cat is eight months old.
5. This cat is being purchased as a PET and will not be shown in CFA (or other registries) with out the written consent of seller. (Seller hereby gives her consent: yes ___ no ___ HHP only _____ initialed by Seller _____) This cat may be shone in 4H (or other non registries) W/O Seller consent.
6. Seller **FORBIDS** having this cat declawed or having this cat's tendons cut! Doing so may change the personality of your cat. You should have an appropriate scratching post and learn to trim nails.
7. It is agreed that if any of the above terms are violated, or if this cat is found at any time to be neglected or mistreated, that Seller shall have the right to repossess this cat immediately at Buyer's expense and Buyer shall forfeit the purchase price paid.
8. If there are other cats in the buyer's household, this cat must be quarantined until Buyer's veterinarian verifies that this cat is in good health; otherwise the following health guarantee is null and void.

Pet Sales Contract (page 2)

SELLER AGREES TO THE FOLLOWING:

1. Seller warrants that this cat is in good health, with no disease or parasites that seller is aware of at this time. Seller recommends that Buyer have this cat examined by a veterinarian within 7 days of receipt. If, during this period, Seller is notified by Buyer of a health problem which existed at the time of receipt, Seller will refund cost of cat upon the speedy return of the (purchased) cat with a veterinarian's written statement of the health problem. Seller is in no way responsible for the cost of the vet check up or treatment. If there is a congenital defect within the first year, seller will return half the initial cost upon written verification of said defect by a veterinarian.
2. This cat is vaccinated with FVRCP appropriately for it's age. Only one more FVRCP vaccination is needed when cat is 12-16 months old and perhaps one when it is 7-10 years old. Over vaccinating can compromise the immune system. I recommend getting titer tests done to check on immunity. I do not recommend use of the FeLV, FIP or ringworm vaccines. If the FeLV vaccine is given to this cat, all health guarantees implied are null and void.
3. Neutering or spaying should be done before the cat reaches 8 months of age. I cannot be held responsible should something go wrong with the surgery. If you have not contacted me by that time the cat is 8 months old with information about the surgery I reserve the right to reclaim the cat.

Due to winding down my cattery because of my husband's health issues, I am unable to replace kittens or cats.

TOTAL COST of \$ _____ paid by the date of sale of _____
